

MT Dry 200

Tiny dimensions.
Huge results.

The MT Dry 200 is a **trimmer** designed to **process dried cannabis flowers**, in a compact version, perfect to be transported in a very comfortable way.

Ideal for small and medium sized growers, its design has been created to offer great performances in a small and light machine, keeping a perfect finish of the processed product.

Portable. Silent. Versatile.

Easy to assemble and clean. Always ready to reach productions of up to 3,5 kg / h.

Maximum performance. Minimum space.

- 250 mm diameter barrel.
- 90 W power motor.
- Up to a production of 3,5 kg / h (800g approx/batch).
- Manufactured in stainless steel.
- Handles for comfortable transport.
- Easy-fit front cover.
- Collection box, no suction needed.
- Blades made of food grade nylon.
- Tensioner for the blades.
- Tilting holder for product loading.
- Tool-free disassembly.

Details that make **the difference.**

Its design is created to be used in any type of spaces, thanks to its **compact size** and its **low noise level**, which is extremely quiet. With its **handles** you can move the machine easily and transport it comfortably.

Turn a simple table into a real processing room, obtaining a great production and a perfect finish of the flowers.

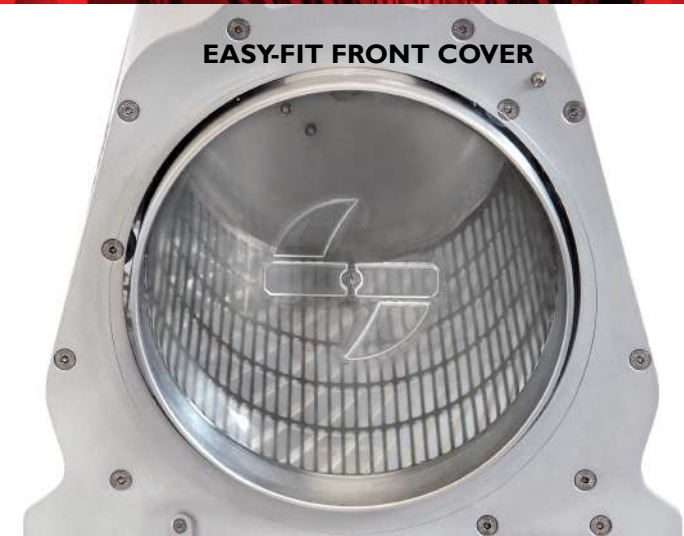

HANDLE TO HOLD

250MM Ø DIAMETER BARREL

EASY-FIT FRONT COVER

Optimum production. **Perfect results.**

Our smallest trimmer is **pure efficiency**. Despite its small size, it achieves impressive results when processing flowers.

With a barrel diameter of 250 mm, an effective cut of 530 mm and a rotation speed of 45 RPM, combined with the powerful 90 W motor, you will achieve an output of 3,5 kg/h.

The removable box allows a better management of product residues.

*The outputs and equivalencies indicated on each machine have been tested by Master Products operators under optimum conditions for a good performance, and may deviate according to the variety of the product treated, the environment, usage, maintenance and equipment settings.

Disassembly and cleaning in less than 1 minute.

We make it easy! Cleaning the MT Dry 200 is quick and easy. Thanks to its system for **removing the motor** and the electrical part **without any tools**, and to the simplicity of **taking the barrel out**, you can clean the structure of the machine in just a few seconds.

Use it as a pollen extractor!

Don't change the machine, change the barrel!

With the **150-micron stainless steel mesh** barrel, you can turn the MT Dry 200 into a pollen extractor, adding great possibilities and **versatility** to your equipment.

Technical data

Electrical connection	230V 50/60Hz
Machine weight	22 kg
Motor power	90 W
Machine dimensions	380 x 700 x 480 mm
Machine material	304 Stainless steel / Aluminum
Barrel material	304 Stainless steel
Barrel diameter	250 mm
Barrel length	530 mm
Barrel speed	45 RPM
Blade material	Nylon
Inclination for loading	10°
Sound level	60 dB
Production Dry	3,5 kg / h
Certifications	CE
Warranty	5 years
